Local Government Board, Dublin,  
20 March 1880.

B. Bantz, Secretary.

LOANS FOR SANITARY WORKS.

OBSERVATIONS with reference to the annexed Return.

Before these Loans can be sanctioned it is necessary that the Local Government Board should be satisfied of the fitness of the proposed scheme to the locality; the ability of the proposed area of charge to bear the taxation; the sufficiency of the plans, estimate and specification in each case, and the probable durability as well as continuing utility of the works.

Property rights have in almost all cases to be arranged for and terms, if bought, settled.

Hence delays occur, which it is wholly impossible to avoid, between the application for the Loan and the giving of the Local Government Board's sanction under the 237th section of the Public Health Act.

In many of the cases of the applications since the 22nd November 1879, difficulties as to property rights arose, which up to the present time have been found insuperable by amicable arrangement.

In many the scheme proposed was opposed after the first proposition.

In others it turned out on investigation that the work could not possibly be deemed a sanitary work.

In some cases the scheme appeared altogether beyond any reasonable requirement of the locality.

In almost every instance the plans, estimates, and specifications have had to be returned for amendments and corrections; having been so badly and insufficiently prepared (either through haste, or ignorance of what was needed, although the forms supplied by the Local Government Board showed, if carefully read, everything that was required) that it was impossible to act on them.

20 March 1880.
